All physicians are required to maintain Cultural Training to be reimbursed by Medicaid and Medicare. Cultural Training provides training, education, or other types of assistance to help providers and suppliers meet the needs of limited English proficient (LEP) patients. This training can include written materials, audiovisual aids, interpreters or translators, and other means of communication to the LEP patient. It is important that you read the Cultural Training section of the Medicare and Medicaid provider enrollment forms to ensure that you understand the requirements. The Cultural Training program is a voluntary program, but providers and suppliers are encouraged to participate. Providers and suppliers who participate in the Cultural Training program will be reimbursed by Medicaid and Medicare for services provided to LEP patients. Cultural Training can be provided by interpreters or translators, written materials, audiovisual aids, or other means of communication. It is important to note that Cultural Training is not required to be performed by a professional, but providers and suppliers are encouraged to work with cultural competence training professionals to ensure that they are providing the best care possible for their patients.
